

PAUL MICHAEL REEPING

250 W 24th Street, Apt 4CE, New York, NY 10011
412-482-0162
paul.reeping@gmail.com

EDUCATION

Columbia Mailman School of Public Health, New York, NY

Doctor of Philosophy (PhD), Epidemiology, 2022

Concentration: Injury (Gun Violence)

Dissertation: The effect of gun-free zones on crimes committed with a firearm and active shootings in the United States, Sponsor: Dr. Charles C. Branas

Harvard T.H. Chan School of Public Health, Boston, MA

Master of Science, Epidemiology, 2017

Concentration: Infectious Diseases

Thesis: Using Infectious Disease Methods to Model Gun Violence, Sponsor: Dr. William Hanage

University of Pittsburgh, Pittsburgh, PA

Bachelor of Science in Microbiology, Summa Cum Laude, 2012

Minor: Chemistry | Certificate: Conceptual Foundations of Medicine

EXPERIENCE

Vital City NYC

New York, NY

Director of Data and Research (June 2024-Present)

Fund for the City of New York

- Develop and implement a comprehensive data analytics strategy that aligns policy advocacy and operational decision-making
- Direct the development of a public facing crime data explorer (<https://www.vitalcitynyc.org/explorer/>)
- Optimize the crime and justice databases on the Vital City website by ensuring data is cleaned, aggregated, and readily accessible for real-time program evaluation and policy development
- Design compelling data visualizations using Flourish and R that transform complex analyses into accessible "data stories" supporting annual/midyear crime reports and policy papers
- Lead end-to-end research projects, from conceptualization through execution, producing policy memos, articles, and evidence-based insights that inform NYC's crime initiatives and program strategies
- Cultivate robust internal and external partnerships through collaboration with city agencies, policymakers, law enforcement, and justice organizations to drive data-informed reforms

Department of Epidemiology

New York, NY

Associate Research Scientist (November 2024-December 2025)

Mailman School of Public Health
Columbia University

- Collaborate on nation-wide case control study on the effectiveness of school hardening features
- Present and public articles related to gun-free zones and sensitive spaces
- Authored and reviewed study protocols, statistical analysis plans, and manuscripts in alignment with high standards of scientific rigor and transparency

Violence Prevention Research Program (VPRP)

Remote

Postdoctoral Fellow (September 2022-June 2024)

University of California, Davis
Department of Emergency Medicine

- Designed, led, and executed real-world observational epidemiologic studies using large administrative, survey, and surveillance datasets
- Applied advanced causal inference methods (e.g., g-computation, marginal structural models, quasi-experimental designs) to estimate real-world effectiveness and policy impacts
- Authored and reviewed study protocols, statistical analysis plans, and manuscripts in alignment with high standards of scientific rigor and transparency
- Delivered rapid, decision-relevant insights from observational data to inform relevant stakeholders
- Synthesized epidemiologic evidence and translated complex analyses into clear, actionable insights for multidisciplinary audiences
- Presented findings at scientific meetings and contributed to peer-reviewed publications

Department of Epidemiology

New York, NY

Graduate Research Assistant (August 2017-September 2022)

Mailman School of Public Health
Columbia University

- Conducted epidemiologic and real-world evidence studies using large observational datasets (administrative, survey, and longitudinal cohort data)
- Developed and implemented statistical analysis plans with emphasis on confounding control, bias assessment, and causal interpretation
- Performed data curation, linkage, and analysis across multiple heterogeneous real-world data sources
- Led epidemiology literature reviews to inform study design, evidence gaps, and interpretation of findings
- Generated scientific deliverables including manuscripts, abstracts, posters, and oral presentations
- Supported grant-funded research through analytic contributions and methodological expertise

International Society for Disease Surveillance

Boston, MA

One Health Project Coordinator (May 2016-January 2017)

- Coordinated One Health projects, including the community of practice, webinars, work group, and website page
- Conducted research and prepared a manuscript on operationalizing One Health Surveillance
- Managed weekly webinars and calls with international scientists from governmental and academic domains
- Planned the One Health pre-conference workshop for the 2016 ISDS annual conference

Professor Hendrix Virology Laboratory

Pittsburgh, PA

Research Assistant (May 2011-January 2012)

- Researched assembly and maturation of the capsid of bacteriophage HK97
- Created site-specific mutations within the conserved Delta Domain of HK97 and reversed a salt bridge interaction
- Used molecular biology practices such as restriction digests, assays and gels on mutants to analyze reactions

Public Health Smoking Research Group

Pittsburgh, PA

Undergraduate Research Assistant (August 2008- May 2009)

- Processed study information through input and organization
- Screened and scheduled participants through phone calls and letters
- Created marketing for the study to attract participants

BOOK CHAPTERS

Reeping PM. The precarious relationship between firearm access and mass shootings in the United States: logically obvious but analytically evasive. In *All American Massacre: The Tragic Role of American Culture and Society in Mass Shootings*. *NYU Press*. (2023).

Reeping PM. Chicago. In *Guns in American Society: An Encyclopedia of History, Politics, Culture, and the Law*. 4th edition. *ABC-CLIO*. (2023).

Reeping PM. School Shootings. In *Guns in American Society: An Encyclopedia of History, Politics, Culture, and the Law*. 4th edition. *ABC-CLIO*. (2023).

WORKS IN PROGRESS AND PRE-PRINTS

Wintemute GJ, Velasquez B, Li Y, Tomich EA, **Reeping PM**, Robinson SL. Racist and Pro-Violence Beliefs, Approval of Extreme Right-Wing Political Organizations and Movements, and Support for Political Violence in the United States. (Pre-print via SocArxiv).

Reeping PM, Velasquez B, Pear VA, Crawford A, Robinson SL, Tomich EA, Wintemute GJ. Homonegativity, transphobia, and endorsement of political violence in the United States. (In Preparation).

Reeping PM, Pear VA. The association between Second Amendment sanctuaries and firearm death in the United States. (In Preparation).

GRANTS

The Effect of Gun-Free Zones on Crimes Committed with a Firearm in St. Louis, Missouri (2019)

PI: Reeping, PM

Dissertation Award

National Collaborative on Gun Violence Research | Arnold Foundation

\$25,000.00

July 2020-September 2021

TEACHING EXPERIENCE

Columbia Mailman School of Public Health, Department of Epidemiology

New York, NY

Teaching Assistant (2017-2021)

History of Epidemiology, Lead TA (Fall 2021)

Infectious Disease Epidemiology (Spring 2021)

Gun Violence and Public Health | History of Epidemiology (Fall 2020)

Epidemiology 2 (Lead TA) | Infectious Disease Epidemiology (Spring 2020)

Gun Violence and Public Health | History of Epidemiology (Fall 2019)

Epidemiology 2 (Spring 2019)

Gun Violence and Public Health | History of Epidemiology (Fall 2018)

Combined Epidemiology and Biostatistics 1 (Summer 2018)

Infectious Disease Epidemiology (Spring 2018)

Epidemiology 3 (Fall 2017)

Teach for America: EPIC Academy

10th Grade Environmental Science Teacher (2012-2015)

Chicago, IL

Certified secondary science teacher in the state of Illinois

Taught environmental science to 150 sophomore level students on the South Side of Chicago

Incorporated data-based results to optimize student learning

Created daily lesson plans and interim assessments, while tracking and facilitating students' progress to goal

Fostered positive classroom culture by executing classroom management systems and procedures

Scored as a "strong" teacher after first year, "master" teacher by second year

University of Pittsburgh, Department of Biology

Pittsburgh, PA

Teaching Assistant (2010-2011)

Microbiology (Spring 2011)

Freshman Seminar in Writing (Spring 2010)

OTHER RELEVANT EXPERIENCE

Harvard T.H. Chan School of Public Health, Office of Diversity and Inclusion

Boston, MA

Equity, Diversity, and Inclusion Fellow (September 2015-July 2017)

Planned a conference for over 100 high school students from underserved backgrounds to learn more about public health

Liaised between faculty, staff, and students on topics dealing with Epidemiology and academic affairs

Expanded network of schools Harvard reaches out for summer program to recruit more diverse students

Assisted with diversity and inclusion programs put on by other equity, diversity, and inclusion fellows

University of Pittsburgh, Residence Life

Program Coordinator (August 2010-May 2011)

Pittsburgh, PA

Led a freshman dormitory of 600 co-ed students by spearheading educational building-wide programs

Organized the operations of over 70 programs per month, with highest attendance in the University

Evaluated programs based on budgeting and effectiveness

Developed systems for giving feedback and reflecting on past programs

PRESENTATIONS

Reeping PM, Velasquez B, Pear VA, Crawford A, Robinson SL, Tomsich EA, Wintemute GJ. Homonegativity, transphobia, and endorsement of political violence in the United States. *Society for Advancement of Violence and Injury Conference (March 2025)*, Oral Presentation.

Reeping PM, Laqueur HS, Kagawa R. Gun Free Zones in Alcohol-Serving Establishments and Risk for Firearm Violence: A Cross-Sectional, Geospatial Study in Texas. *2024 National Research Conference for the Prevention of Firearm-Related Harms*. (November 2024). Oral Presentation.

Reeping PM, Pear VA. The association between Second Amendment sanctuaries and firearm death in the United States. *2023 National Research Conference for the Prevention of Firearm-Related Harms*. (November 2023). Oral Presentation.

Reeping PM, Killian G, Gobaud AN, Mehranbod C, Rajan S. Predictors of ATF inspections of FFLs and subsequent violations. *2023 National Research Conference for the Prevention of Firearm-Related Harms*. (November 2023). Poster Presentation.

HONORS, AWARDS AND FELLOWSHIPS

2024	Greenwald Family Award, runner-up, for most influential papers in gun violence prevention
2023-Present	Affiliate Scholar, Regional Gun Violence Research Consortium (RGVRC), Rockefeller Institute of Government
2022	Susan P. Baker Award for best injury related thesis in epidemiology, Columbia University Mailman School of Public Health, New York, NY
2019	Best Student Abstract, Firearm Prevention Research Among Children and Teens Annual Symposium, Ann Arbor, MI
2018-22	Predoctoral Affiliate, Firearm Safety Among Children and Teens Consortium (FACTS)
2016-17	Vice President, Communications, Harvard T.H. Chan Students Association, Boston, MA
2012	Amgen Fellowship Grant, Teach for America, given to the top incoming 100 Teach for America STEM corps members
